Andrew,

I tried to explain to the Mexicans that we did not enter the transaction planning to circumvent them and do the transaction alone. Therefore my statement that we where only interested doing the transaction jointly.

Hopefully with this statement we dont here anymore threats from Hartasachez quoting that he will do everything to stop us from the deal.

Anyhow they canceled the agreement with you, therefore there is no more joint operation nor any other sort of operation jointly possible.

We therefore do have the right to conduct any kind of operation with you as the only client, being introduced through A. Alfonso with or without the Mexicans, depending if they are your partners or not. We actually dont know any Mexicans other then from a phone call.

We will receive deposit confirmation on our settlement here within 48 hours. At the same time I am issuing instructions later this afternoon for your pocket money. Instead of a basic SCFA Agreement we should form a company jointly where we both have our equity and you are the managing partner. Same company then could take over the real estatebased on a FDI Certificate from the Mexican authorities.

I am in touch with you in the morning your time.

Yours

CHRIS
